WE NEED YOUR ASSISTANCE... During the summer months we all leave our doors and windows unlocked as we work around our homes. Our police department has again issued a warning that there is a possibility that some persons passing through our community could enter our homes unobserved and remove valuables. We ask that homeowners be alert and observant as to non-residents in our community who are acting suspiciously or are in places or activities they should not be. Their activities should be brought to the attention of the West Bloomfield Police and/or your Association officers. There is no harm in verifying someone's presence in our community. Our mutual safety is everyone's concern.
